

Microtek® ScanMaker® s400

High-quality, versatile scanning for your home or small office featuring one-click color restoration.

The ScanMaker s400 is the perfect combination of precise engineering and stylish design, bringing high-quality scanning to the home or small office. Its high 9600 x 4800 dpi resolution lets you create poster-sized files of your photos with remarkable sharpness and detail previously available only in much higher-priced scanners. And with the included LightLid 35 Plus slide and filmstrip adapter, you can easily scan negative and positive filmstrips and up to four slides at a time. Additionally, a Hi-Speed USB interface, seven easy-to-use buttons, as well as imaging and document-scanning options add to the scanner's universal appeal, utility and value. The ScanMaker s400 is the ideal workhorse for the home or office user needing high-resolution and high-quality imaging.

Personal digital imaging solution

- 9600 x 4800 dpi optical resolution for poster-size enlargements and crisp details
- LightLid 35 Plus lets you scan negative and positive filmstrips and up to 4 slides at a time
